- ✓ night vision: 6m / mechanical infrared filter
- ✓ Compatibility: TaHoma, Nest, Amazon Alexa, IFTTT, Google Assistant

**io-homecontrol (2 W)**

protocol

**220–240 V AC**

power supply

The IZYMO io ON / OFF receiver allows you to add the io-homecontrol® protocol (with feedback) to your lights or home appliances and control them remotely via the Internet. Thanks to this, you will be able to manage devices remotely using the remote control. Add them to your Tahoma or Connexoon system to manage them from your smartphone, create scenarios, schedules, simulate your presence while on vacation and much more!
